MFF interim dividend increase with a special

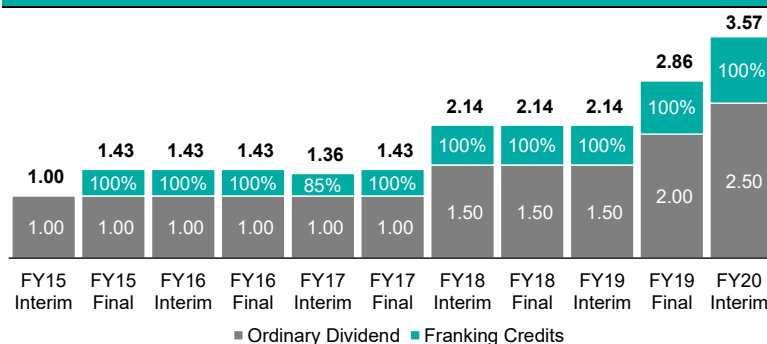

The Directors of **MFF Capital Investments Limited (MFF)** have declared a fully franked special dividend of 20cps along with 66.7% increase in the interim dividend, from 1.5cps in 2019 to 2.5cps. The special dividend is the result of strong performance in the underlying portfolio and profitable sales which coincided with recent regular tax payments. Whilst these payments reduce pre-tax NTA, the imputation credits are passed through to shareholders in the form of fully franked dividends, with the special dividend utilising approximately \$46.5m of imputation credits.

VG1 declares maiden LIC dividend

VGI Partners Global Investments Limited (VG1) announced the intention to pay shareholders two fully franked dividends after each of the 1H20 and FY20 results. Each dividend is intended to be approximately 1cps. The first 1cps distribution is to be paid on 3 April 2020, with an ex-date of 2 March 2020.

The introduction of a dividend program is one of several initiatives mentioned by VGI Partners in the January 2020 Investor Letter that is aimed to address the discount to NTA that VG1 has been trading at.

The Manager highlights the VG1 equity capital raising of \$300m announced in May 2019 as a possible cause to the discount, potentially reducing the on-market demand for the LIC. Shareholders were able gain access to the Manager's IPO via the raising which appears to have seen subsequent post-IPO selling of VG1 shares. This also appears apparent with the VG8 IPO that was announced in August 2019.

Bell Potter's Indicative NTA tracks the 'indicative' movement of a LICs underlying NTA each month by monitoring the percentage movements of the disclosed holdings, and using an index to track the movement of the remaining positions. We have also included an adjusted indicative NTA[^] and adjusted discount[^], which removes the LIC distribution from the ex-dividend date until the receipt of the new NTA post the payment date.
